It establishes how the Pivot logo is to be applied to ensure a consistent, professional and recognisable brand identity across all customer touchpoints.

Only approved logo assets may be used.

Logo Composition

The primary logo consists of two elements:

- Icon
- Wordmark

These elements form the complete Pivot logo and must not be separated, rearranged or modified except where an approved alternate logo asset is provided.

Logos

The following approved logo assets are available for use across digital, print, apparel and promotional applications. The appropriate logo version should be selected to provide maximum clarity, contrast and consistency for each application.

Below the icon, the word 'PIVOT' is written in large, bold, orange capital letters, and 'TEAMWEAR' is written in smaller, white capital letters underneath.

Primary (Transparent)

The transparent version of the primary logo should be used where the application background is controlled by the digital platform or design. It is the preferred asset for websites, presentations and other digital media requiring a transparent background.
