

BUSINESS PLAN

Purpose

Pivot Teamwear (Pivot) provides custom uniforms and associated apparel for sporting clubs throughout Greater Bendigo. Through a managed service model, Pivot simplifies the design, ordering, manufacture and delivery of quality teamwear.

Version Control

VERSION	PURPOSE	DISTRIBUTED	DATE
0.01	Draft	Internal	11 July 2026
1.00	Approved for implementation	Director	12 July 2026

Pilot Objective

Before commencing broader operations, Pivot will operate exclusively with Phoenix United Basketball Development Club (Phoenix) as a controlled pilot customer.

The objective of the pilot is to determine the commercial and operational viability of the Pivot Teamwear business model through assessment of:

Customer onboarding	Product selection	Artwork approval
Online store creation	Ordering workflow	Automation
Supplier performance	Manufacturing	Fulfilment
Customer experience	Profitability	

No marketing or sales activity will be undertaken outside Phoenix until the pilot demonstrates that the business model is repeatable and commercially viable.

Pilot Success Measures

The pilot will be considered successful when Pivot can consistently demonstrate:

Accurate quoting	Smooth ordering process	Reliable production
On-time delivery	Positive customer feedback	Sustainable gross margins
Repeat orders from Phoenix	Successful local fulfilment	

Operating Principles

Customer-first service	Simple, repeatable processes	Strong supplier relationships
Quality without compromise	Continuous improvement	

Growth Strategy

Phase 1 - Validate	- Phoenix only - Refine operations - Build templates and documentation - Establish supplier network
Phase 2 – Controlled Growth	- Expand through selected opportunities - Add selected local clubs - Scale only after operational readiness
Phase 3 - Expansion	- Broader market expansion - Increased automation - Multiple customer partnerships

Guiding Principle

Only after validating the pilot.
